CUT COSTS, SAVE TIME

This Super G3 fax transmits documents at a fast 3 seconds per page*, so your phone costs are reduced and less time is spent waiting at the machine.

WORRY-FREE FAXING

If paper or toner runs out during the evening or weekend, a 350-page memory safely stores all incoming documents - for printing out afterwards. Also documents can be scanned in memory and sent later.

EXCEPTIONAL QUALITY

When you're transmitting detailed documents, such as diagrams or photos combined with text, Canon's unique UHQ (Ultra High Quality) technology ensures a perfect finish every time. Half-tone reproduction gives extra depth and clarity.

CONVENIENT ALL-IN-ONE CARTRIDGE

Simply switch the All-in-One cartridge, containing toner and all essential parts, and your fax is as good as new. There's no mess, no hassle.

U-PAPER PATH

The FAX-L220 looks good and can fit easily on any desk or space - thanks to its compact, classy design with space-saving U paper path.

ELIMINATE UNWANTED FAXES

Direct mail prevention means you will only receive faxes from coded numbers stored in the machine, thus eliminating unwanted faxes.

DIAL SEARCH

Operation is equally easy, with a handy dial search function showing all stored one-touch and coded dials alphabetically.
